BUILDERS CAIRNS
AUSTRALIA

superior craftsmanship

OUTBOARD PROFILE

CJH Yachts are Cairns' leading marine vessel specialists. Lead by Shipwright Chris Headley since 1999, CJH Yachts is a family owned and operated business that prides itself on offering international innovation, superior craftsmanship, and professional & friendly service with local personalisation.

Chris is fortunate enough to have been able to blend his true passion with his career in the world of boat building. The 'sailing bug' is in his blood, and dates back several generations. Growing up north of London, his childhood was dominated by family sailing trips and memories of building boats at the age of 14 in his lounge room with his father. (*And were not talking about model boats, we are talking full size fiberglass catamarans*). Memories that are now shared with his own children.

We are passionate about boating and all aspects of being out on the water which shows in our understanding of customising projects and delivering the individual needs of our customers. From small repairs and general maintenance to large-scale commercial fit-outs, to designing and crafting original vessels, CJH Yachts meets the needs of any marine vessel owner.

Our quality is second to none. With skills to complete intricate timber work and also the technology and experience to create your modern and stylish dream boat.

We pride ourselves on using quality products, and our highly-skilled workmanship from some of Queensland's best trained Shipwrights and Boat Builders.

We look forward to helping you with your boating projects!
